Qaiser Shafiq

M.D., M.MSc., C.H.S., F.A.C.C., F.S.C.A.I.

Cardiology

Years of Experience
20+ years

Dr. Shafiq's Background & Experience

Dr. Qaiser Shafiq is a cardiology specialist primarily located in Southgate, Michigan, with additional practices based in Toledo, Ohio. Dr. Shafiq has more experience with heart conditions than any other specialist in his area. He is affiliated with medical facilities including Beaumont Hospital – Dearborn and Beaumont Hospital – Taylor. Dr. Shafiq has overseen patient care in both research and hospital settings. With an educational background from Harvard Medical School in Translational Research and Clinical Investigation, Dr. Shafiq is a valuable addition to our prestigious network of Principal Investigators.

With his commitment to health and deep knowledge of cardiovascular diseases, he has dedicated his skills to Revival Research Institute's mission as an Investigator. Dr. Shafiq is currently conducting Phase II and Phase III Clinical Trials in Cardiology and is committed to making treatments accessible and convenient for patients.

Clinical and Academic Contributions

Following his academic pursuits, Dr. Shafiq completed a fellowship in cardiovascular disease and interventional cardiovascular medicine at the University of Toledo. He then served as an Assistant Professor of Medicine in the Division of Cardiovascular Medicine at the University of Toledo School of Medicine. Dr. Shafiq's dedication to patient care and clinical excellence earned him the "Consultant of the Year" award from ER residents at Henry Ford Wyandotte Hospital in 2019. His passion for research and commitment to advancing medical education are evident through his numerous contributions to the field of cardiology.

Research and Clinical Trial Expertise

Dr. Shafiq joined Revival Research Institute in 2021 and has since served as the Principal Investigator on nine successful clinical trials. His research site, supported by a team of four full-time, extensively trained clinical coordinators, excels in recruiting participants and exceeding sponsors' expectations. The site is equipped with advanced tools—including centrifuges, ECG machines, and temperature monitoring devices—to ensure the highest standards of clinical trial management. Dr. Shafiq's dedication to producing high-quality, query-free data and delivering excellent patient care has made him a key asset to the research institute.

Education & Experience

Having earned his M.D. from the University of Toledo in Ohio, Dr. Shafiq has over 20 years of experience in the field of cardiology. He completed his fellowship in cardiovascular medicine at the University of Toledo's Division of Cardiovascular Medicine.
