Syed Ali Muttaqi Husain

M.D.

Rheumatology

Years of Experience
15+ years

Dr. Husain's Medical Background and Expertise

Dr. Syed Ali Muttaqi Husain is a distinguished rheumatologist with extensive clinical and research experience. As a Principal Investigator at Revive Research Institute, Inc., he plays a pivotal role in advancing medical research. His background includes expertise in rheumatology, internal medicine, and gastroenterology, making him a well-rounded clinician dedicated to improving patient outcomes.

He has a special interest in arthritis, polymyalgia, and lupus, focusing on innovative treatments and improved patient care in these areas. His dedication to these conditions has made him a trusted expert in managing complex autoimmune and inflammatory diseases.

Commitment to Research & Patient Education

Dr. Husain is deeply committed to clinical research, pharmacology, and patient education. His scholarly contributions include publications in *Current Osteoporosis Reports*, focusing on epigenetics, bone remodeling, and immune factors contributing to osteoarthritis. His role as a research associate and investigator has enabled him to contribute significantly to the development of innovative treatments. He is equally passionate about patient education, ensuring individuals understand their conditions and available treatment options.

Leadership & Community Engagement

Beyond clinical practice, Dr. Husain has demonstrated strong leadership and a commitment to community service. He has been actively involved in professional organizations and medical relief efforts, including:

- **Residency Operations Committee (ROC) & Education Curriculum Committee (ECC)** at Wayne State University
- **Site Director** for AIMS Hospitalist at St. John Providence Hospital
- **Volunteer Work** with the Pakistan Medical Association and Rotary Club, participating in medical relief efforts and polio vaccination campaigns

Dr. Husain's combination of clinical expertise, research contributions, and leadership makes him a valuable asset in the field of rheumatology and in medical research.
